The Platform II is the flagship line of ruggedized multitouch tables from Ideum available with 43”, 49”, 55”, and 65” displays. It includes a 4K Ultra HD LG commercial display rated 24/7 and industry-leading touch technology from 3M™ with support for 80 touch points. The Platform II comes complete with a full-featured and powerful integrated 8th Gen Intel® Core™ processor, the latest NVIDIA™ discrete graphics card, and single push-button power.
The Platform II’s elegant design is also incredibly tough. Its sleek lines are forged from aircraft-grade aluminum and covered with a durable powder coat. Ideum displays use a patented manufacturing method. The Platform II is quality-built in the USA, and ships as a complete turnkey system with lockable, push-button operation. It doesn’t require a technician or any special installation setup—just plug it in and turn it on. All of Ideum’s hardware is backed by a three-year manufacturer’s warranty.

What’s Inside

Our touch tables and touch walls include the best performing, most reliable components available.
Software

Ideum uses innovative custom software to tell stories that evoke wonder and spark curiosity about the world around us. Our expertise in a broad range of programming environments allows our work to span the realms of informal and formal education, interactive technology, gaming, art, and entertainment.

Tangible Engine 2 is an authoring environment supporting the use of fiducial object recognition on Ideum multitouch tables. This software allows for the unique recognition of objects with 3D printed conductive patterns. Tangible Engine 2 includes test objects, a Visualizer / Configurator Tool, an SDK, and documentation.

Pricing and more information can be found at: tangibleengine.com

GestureWorks 2 is a multitouch authoring solution that works with C++ and Unity3D. It has nine basic built-in gestures and supports hundreds more using the extensible Gesture Markup Language. Licenses include ticketed, timely support* and free upgrades for life.

More information can be found at: gestureworks.com

Our new and improved RFID software allows you to automate system tasks, launch and switch applications, and more with a single movement. This useful utility is free for Ideum touch table owners.
