The Presenter is a 4K Ultra HD multitouch display that incorporates industry-leading touch technology from 3M™ with support for 80 touch points and an LG commercial 4K Ultra HD monitor rated 24/7. The Presenter has an all-aluminum frame built in the USA. Presenter displays can be equipped with an Intel™ 8th Gen Core processor, the latest NVIDIA™ discrete graphics cards, and single push-button power.
The Presenter’s elegant design is also incredibly tough. Its sleek lines are forged from aircraft-grade aluminum and covered with a durable powder coat. The Presenter is quality-built in the USA using a patented manufacturing method. With the integrated computer option, it ships as a complete turnkey system with lockable, push-button operation. It doesn’t require a technician or any special installation setup—just plug it in and turn it on. All of Ideum’s hardware is backed by a three-year warranty.

Software

Ideum uses innovative custom software to tell stories that evoke wonder and spark curiosity about the world around us. Our expertise in a broad range of programming environments allows our work to span the realms of informal and formal education, interactive technology, gaming, art, and entertainment.

Multitouch Authoring

Ideum multitouch products include a free, lifetime license for GestureWorks 2 (upon request).

GestureWorks 2 is a multitouch authoring solution that works with C++ and Unity3D. It has nine basic built-in gestures and supports hundreds more using the extensible Gesture Markup Language. Licenses include ticketed, timely support* and free upgrades for life.

More information can be found at: gestureworks.com

RFID Utility

Ideum multitouch products include an RFID utility for enhanced functionality.

Our new and improved RFID software allows you to automate system tasks, launch and switch applications, and more with a single movement. This useful utility is free for Ideum touch table owners.
