

SmartLift

for Ideum Presenter Touch Walls

Presenter

The SmartLift is compatible with 43", 49", and 55" Ideum Presenter touch walls. The Presenter series incorporates 4K Ultra High Definition displays and the latest projected capacitive touch technology from 3M™ with support for up to 80 touch points.

Optional Computer

The Presenter offers an optional integrated computer system with an Intel® i7 quad-core computer, the latest NVIDIA™ discrete graphics card, and single pushbutton power. The stands, Presenter multitouch monitors, and optional integrated computers work perfectly together. You can lift, lower, and tilt the Presenter to any angle while the custom-designed computer case remains safely behind the screen.

SmartLift

A pushbutton controller provides adjustments for height and angle that allows for a range of display orientations, from touch wall, to drafting-style touch table, to flat touch table. Its flexibility makes it perfect for office, laboratory, and school settings. The SmartLift is constructed of black steel and comes with adjustable mounting brackets and solid-based wheels/casters.

Big Lift

for Ideum Presenter Touch Walls

Presenter

The Big Lift is compatible with 65" Ideum Presenter touch walls as well as larger screens. The Presenter 65 has a 4K Ultra High Definition display and uses the latest projected capacitive touch technology from 3M™ with support for up to 60 touch points.

Optional Computer

The Presenter offers an optional integrated computer system with an Intel® i7 quad-core computer, the latest NVIDIA™ discrete graphics card, and single pushbutton power. The stands, Presenter multitouch monitors, and optional integrated computers work perfectly together. You can lift, lower, and tilt the Presenter to any angle while the custom-designed computer case remains safely behind the screen.

Big Lift

A pushbutton controller provides adjustments for height and angle that allows for a range of display orientations, from touch wall, to drafting-style touch table, to flat touch table. Its flexibility makes it perfect for office, laboratory, and school settings. The Big Lift is built out of powdercoated aluminum and is available with an optional shelving unit.
